THE FUTURE OF THE CITY AS A COMMUNITY

TOPIC:

What Planning is Going On That
Will Work For A Revitalized
Terre Haute and Vigo County?

GOALS:

To arouse interest and awareness
of city needs by presenting a
brief overview of the physical
characteristics of the city.

To identify the governmental
services that have responsibility
for city planning.

To explore what is being planned
to meet today's needs and tomor-
row's challenges.

To suggest areas where the libra-
ry might provide information or
act as a catalyst for city progress.

*The morning session will be held
in the Emeline Fairbanks Memorial Li-
brary. Lunch and the afternoon ses-
sion will be in the Pine Room of Hul-
man Center.*

THE PUBLIC LIBRARY

The library is the hub of education. The library is the source of facts upon which intelligent solutions must be based. The library is the repository of the experiences of man in coping with himself, his society and his environment.

The public library, a social institution of its community, is concerned with those aspects of human communication, education and recreation that involve recorded information and ideas. The public library exists only in those societies where there is an unbiased and continuing quest for information and truth.

The Vigo County Public Library is charged with the responsibility for the collection, storage, organization, retrieval and transfer of recorded information and ideas selected to meet the needs and interests of the individuals, groups and organizations of Vigo County, and for providing services requiring the use of such records.
